Is Interstellar Space Travel Possible? Are UFOs Real, Extraterrestrial? Eminent Scientists and Aviation Experts to Present Facts and Theories

A Symposium at The George Washington University

WHAT: At this unique symposium -- *Interstellar Travel and Unidentified Aerial Phenomena: Science Fiction or Science Fact?* -- eminent scientists and aviation experts will explore the potential for interstellar space travel and the evidence of unidentified aerial phenomena, sometimes referred to as UFOs. Hosted by The George Washington University and sponsored by SCI FI Channel, this symposium will provide attendees with a scientific understanding of how interstellar travel might be possible and highlight the need for a thorough scientific investigation of unidentified aerial phenomena.

WHO: Moderator – Ray Suarez, Senior Correspondent, The NewsHour with Jim Lehrer

Panelists:

- ÿ Dr. Michio Kaku, professor of theoretical physics at the City College at the City University of New York
- ÿ Dr. Richard Henry, professor of astrophysics at Johns Hopkins University
- ÿ Dr. Peter Sturrock, emeritus professor of applied physics at Stanford
- ÿ Dr. Jacques Vallee, astrophysicist and computer scientist, now in the private sector
- ÿ Dr. Bernard Haisch, Director for the California Institute for Physics and Astrophysics
- ÿ Ted Roe, Executive Director of the National Aviation Reporting Center for Anomalous Phenomena
- ÿ John Callahan, former Division Chief of Accidents and Investigations for the FAA

WHERE: The George Washington University's Marvin Center -- Continental Ballroom on the third floor. The Marvin Center is located at 800 21st Street between H and I streets.

WHEN: November 8, 2002 from 9:00 AM to 1:00 PM

CONTACT: Cynthia Determan at (202) 879-9309

The symposium is free of charge. However, seating is limited and pre-registration is required. Please call by November 1st to RSVP for the event.
